BUSINESS REVIEW

China New Way Investment Limited (“China New Way”) is the controlling shareholder of the Company since early 2015, while China New Way utilized its shareholder platform to successfully bring in 中國城市建設控股集團有限公司 (transliterated as China City Construction Holding Group Company) (“CCCC”) and conducted a substantial restructuring of the Company’s shareholding structure. China New Way and its shareholders possess ample capital investment experience and vast networks in China and overseas, while CCCC is a company engaging in urban development and construction in China and overseas, this is beneficial for Chun Wo’s active exploration of different forms of collaboration opportunities in China and overseas to further enhance profitability. During the review period, strategic cooperation between the Group, China New Way and CCCC began to take shape, with synergies becoming more evident. Not only does the introduction of CCCC facilitate the steady development of Chun Wo’s business in Hong Kong, it also presents good potential development opportunities for the Group in China and overseas to further increase its business scope. In particular, progress has been made on the residential project in Ma On Shan, New Territories, Hong Kong, which both parties have been closely collaborating on, and the Group’s purchase of certain ownership rights for a parcel of land in Miami, the U.S.A. for property development projects on 2 October 2015, which was done after the review period. Infrastructure investment and cooperation in China and overseas have also achieved expected results in this regard.

The overall performance of the Group for the six months ended 30 September 2015 was solid, and the total revenue was approximately HK\$4.07 billion, representing a year-on-year rise of 2.5%. Net profit grew by 744.5% to approximately HK\$218.7 million, while net profit margin increased to approximately 5.4%. Earnings per share was approximately HK15.52 cents, representing a year-on-year rise of 721.2%.

BUSINESS REVIEW *(Continued)*

Construction

Over the past six months, the performance of Chun Wo's core construction business was stable. Construction contracts continued to progress as scheduled, while a number of major projects were completed during the period. During the review period, the business segment recorded revenue of approximately HK\$3.85 billion, representing a year-on-year rise of 3.2%. Segmental profit was approximately HK\$42.4 million, representing a modest year-on-year decrease of 29.1%. The reduced rate of increase was mainly attributable to the slowdown in the tendering of numerous major government projects.

As at 30 September 2015, the total value of contracts in hand for the Group was approximately HK\$30.78 billion, of which the value of unfinished contracts was approximately HK\$13.87 billion, which was up by 14.6% and 3.9% respectively over the comparable figure as at 31 March 2015.

Despite the delays in awarding of tenders for numerous major government infrastructure construction projects due to various external factors during the review period, the Group was still able to secure the tenders for seven new projects by leveraging its outstanding past performance and superb service quality. The total value of the new contracts, covering a diverse range of responsibilities, was approximately HK\$2.93 billion. Comparing with the total values approximately HK\$2.22 billion for the same period last year, it rose by 32%. The contracts with the greatest value include the term contract for minor works 2015 for Hong Kong East and Hong Kong West Clusters with a contract value of approximately HK\$837 million, which is expected to be completed in the third quarter of 2018, and the design and construction of New Territories West Regional Office of Water Supplies Department and Water Resources Education Center located at the intersection of Tin Cheung Road and Tin Pak Road in Tin Shui Wai, New Territories with a contract value of approximately HK\$630 million, which is expected to be completed around the third quarter of 2017. In addition, the Group also secured the contract for the renovation works of Hong Kong Buddhist Hospital. Securing tenders for new projects during the period demonstrates the market recognition for the outstanding project execution capabilities of Chun Wo. However, due to the current political environment, tender issuances of civil infrastructure projects have been delayed. There were almost none of new civil projects have been awarded in the market during the review period.

BUSINESS REVIEW *(Continued)*

Construction *(Continued)*

During the review period, the various construction projects made ideal progress, which included connection work at the Central-Wan Chai Bypass North Point section tunnel and Island Eastern Corridor Link; the Hong Kong-Zhuhai-Macao Bridge Hong Kong Boundary Crossing Facilities; the MTR Shatin to Central Link and platform modification and associated works at East Rail Line; and the Happy Valley Underground Stormwater Storage Scheme.

The construction segment of the Group completed and delivered five projects during the review period, which included the construction works of Tuen Mun Western trunk sewerage; the urban renewal project at Castle Peak Road/Cheung Wah Street, Sham Shui Po; and Stage 2 of the replacement and rehabilitation of water mains in Northern and Southwestern Hong Kong Island.

Property Development and Investment

During the review period, the property development and investment segment recorded revenue of approximately HK\$12.6 million, compared to approximately HK\$57.4 million for the corresponding period of 2014. Segmental profit approximately HK\$202.9 million, compared to approximately HK\$4.0 million last year, representing a year-on-year increase of 4,924.1%.

Following an evaluation of the Group's circumstances, and after meticulously analyzing market trends, the Group sold three assets at favorable prices during the period. The transactions led to an increase in the segmental profit for the period. Specifically, the Group sold 100% interest in Profit City International Limited, a wholly-owned subsidiary. The Company holds interest in two parcels of land in Macau, and the estimated profit to be recorded is HK\$200 million calculated based on a selling price of HK\$230 million. The sale was completed on 31 July 2015. Besides, the 49% interest in the carpark development of No. 8 Clear Water Bay Road was sold and completed on 1 September 2015. Further, the Group also sold 10% interest in the Kau To Shan project for HK\$195 million during the period, and profit from the sale is estimated to be approximately HK\$29.3 million. The sale was completed on 6 October 2015.

The Group's residential development project located at Tseng Choi Street, Tuen Mun is making a smooth progress. The gross floor area of approximately 148,000 sq. ft. and is expected to provide 360 residential units, and a commercial floor area of approximately 38,000 sq. ft. The project is expected to commence pre-sale by mid 2016 and to be completed by the end of 2017.

BUSINESS REVIEW *(Continued)*

Property Development and Investment *(Continued)*

In addition, the Group intended to develop the residential property at Yiu Sha Road, Whitehead, Ma On Shan into a quality low-density residential project with spectacular views across Tolo Harbour and Starfish Bay. The gross floor area of approximately 387,500 sq. ft. and is expected to provide approximately 500 residential units. The project is still at the stage of planning applications. Site formation is planned to commence in the first quarter of 2016, and the project is expected to commence pre-sale at begin in mid-2017 and be completed by the end of 2018 at the earliest.

Chun Wo will continue to review and adjust its property portfolio, and focus property development in Hong Kong and developed countries such as the U.S.A.. It will release its assets at the most attractive prices and at the appropriate time in order to more flexibly allocate financial resources. The Group will strive to deliver the highest returns to shareholders and realize the greatest investment value.

Professional Services

The Group's security and property management service continued to provide efficient and quality one-stop facility solutions as usual, and has received widespread recognition from the market for providing reliable services to its customers in the past. Aside from continuing to provide security and property management services for large enterprises such as MTR, the Group also gained several major customers during the review period, including One Island South, a prestigious commercial building in Wong Chuk Hang, Hong Kong Sports Institute and Solar Tower in Ma Wan, among others. In addition, the area of service provided by the Group to the properties managed by MTR has surpassed 15 million sq. ft. in aggregate. Chun Wo will continue to develop the security and property management markets and grasp potential opportunities to expand its market share.

BUSINESS REVIEW *(Continued)*

Liquidity and Financial Resources

The Group mainly relies upon internally generated funds as well as bank and other borrowings to finance its operations and expansion, which is supplemented by equity funding when it is required.

At 30 September 2015, the total net debts of the Group amounted to approximately HK\$1,442.8 million, representing total debts of approximately HK\$2,880.7 million less total of pledged bank deposits and bank balances and cash of approximately HK\$1,437.9 million. The debt maturity profile based on scheduled repayment dates set out in loan agreements of the Group at 30 September 2015 is analysed as follows:

	As at 30 September 2015 HK\$ million	As at 31 March 2015 HK\$ million

Liquidity and Financial Resources *(Continued)*

At 30 September 2015, the gearing ratio of the Group, being the proportion of net interest bearing debts to equity attributable to shareholders of the Company was 0.80 (31 March 2015: 0.85).

To minimise exposure on foreign exchange fluctuations, the Group's borrowings and cash balances are primarily denominated in Hong Kong dollars or Renminbi which are the same as the functional currency of the relevant group entity. The Group has no significant exposure to foreign exchange rate fluctuations and shall use derivative contracts to hedge against its exposure to currency risk only when it is required. Furthermore, the Group's borrowings have not been hedged by any interest rate financial instruments.

The Group's financial position is sound and strong. With available bank balances and cash and bank credit facilities, the Group has sufficient liquidity to satisfy its funding requirements.

Pledge of Assets

As at 30 September 2015, the Group pledged bank deposits, properties under development, properties, plant and equipment of approximately HK\$694.7 million to financial institutions in order to secure the general banking facilities granted to the Group.

In addition, the Group has pledged its equity interest in a non-wholly owned subsidiary to secure the banking facilities granted to the Group.

Contingent Liabilities

Details of the contingent liabilities of the Group are set out in Note 19 to the condensed consolidated financial statements.

Employee and Remuneration Policies

The Group had approximately 4,700 employees at 30 September 2015. Total remuneration of employees for the six months ended 30 September 2015 amounted to approximately HK\$644.7 million. Employees are remunerated according to nature of the job and market trend, with built-in merit component incorporated in the annual increment to reward and motivate individual performance. Employee bonus is distributable based on the performance of the respective subsidiaries and the employees concerned. Moreover, the Group also provides in-house and external training programmes which are complementary to certain job functions.

OUTLOOK AND PROSPECTS

Construction

The Group expects the long-term development of the construction industry to remain stable, but will continue to face various challenges in the short term. As the Hong Kong government has continued to be affected by delays pertaining to the allocation of public funds, expected construction funds are still unable to be allocated, as a result of the tendering plans of many government construction projects to be abandoned, one of the example is the tender of the Central Kowloon Route project has been delayed. Due to the delay of a number of civil project tenders, the Group will experience slowdown in its civil construction business. While the development of the entire construction industry could be greatly affected, Chun Wo is confident in its ability to rise above the competition in the bidding of new projects. Moreover, with the Hong Kong market is expected to continue experiencing pressure for greater housing supply, Chun Wo remains optimistic about the potential amount of construction projects in the next few years. It will therefore strive to compete and secure tenders for various projects up for bidding in relevant construction fields. At the same time, faced with continuously rising industry costs and expenses, the Group will focus on exploring measures to control costs and improve efficiency, and actively to develop a wide range of projects to achieve sustainable development.

The Strategic collaboration with new shareholders will continuously create a new driving force for the Group's construction business. By utilizing the new shareholders platform in China, further cooperation can be promoted with major construction enterprises in China. This will create greater opportunities for the Group to align itself with national policies that lead to potential commercial opportunities, especially public and private joint-venture projects and various major development projects related to the "One Belt One Road" economic collaboration strategy and will also expedite the Group's development pace in overseas markets.

Property Development and Investment

The property development and investment segment will become one of the main driving forces for the future development of the Group. Within this business segment, the strategic partnership with China New Way and CCCC will be beneficial for the Group in developing new business. The Group will actively explore high-potential property development opportunities, mainly through joint ventures that help to mitigate risk as well as secure the operating capital required for each project.

MANAGEMENT DISCUSSION AND ANALYSIS *(Continued)*

OUTLOOK AND PROSPECTS *(Continued)*

Property Development and Investment *(Continued)*

Currently, the strategic investment between Chun Wo and CCCC has begun to bear fruit, as both parties are working closely together and are jointly involved in a comprehensive development project located in downtown Miami, the U.S.A. – taking the first step in the joint development of overseas markets. Chun Wo and CCCC will hold 45% and 55% interest respectively in the project, which has a floor area of approximately 3,200,000 sq. ft. and will be held for development purposes.

Looking ahead, Chun Wo will continue to use the joint development project in Whitehead, Ma On Shan as a model for developing and investing in similar projects through partnerships. While the Group reinforces its market presence in Hong Kong, it will also continue to pay close attention to China and overseas markets, especially in countries such as the U.S.A. and the U.K. for potential development and acquisition opportunities and to optimize its overall investment portfolio to bring the most ideal returns to shareholders.

The professional services (security and property management) business segment will have vast room for growth in the next few years, and is expected to continue performing strongly.

Overview

In conclusion, Chun Wo will continue to reinforce its core construction business and expand the property development and investment, security and property management business, and has devised business plans for the next few years. The Group will continue to utilize its outstanding construction capabilities to further contribute to the urban development of Hong Kong. The resources and investment experience of new shareholders from China and overseas will aid the Group in further expanding its construction, property development and investment, security and property management businesses in different regions, allowing Chun Wo to establish a global presence and become a leading multinational commercial enterprise group. In addition, as part of its strategic development plan, the Group will continue to actively explore high-potential property development and investment opportunities in China and overseas that are collaborative in nature.

Chun Wo will also continue to improve internal control measures, reduce costs and risks while striving to enhance overall operating efficiency. The Group is confident that it can achieve the goal of maintaining a 10% year-on-year annual net profit growth in the current financial year.

CORPORATE SOCIAL RESPONSIBILITY

OUR PEOPLE

Chun Wo has always placed emphasis on advancing employee relations, and has strived to create a more harmonious working environment for all employees through different types of activities. On 30 September 2015, the Group had approximately 4,700 employees — most of whom are stationed in Hong Kong. During the period, the Group continued to promote the company spirit of togetherness and camaraderie among employees, and which included increasing the paternity leave of male employees to five days. Moreover, to help employees improve and realize their career goals, the Group prepared a wide range of training programs, including accountant internship program aimed at training accounting professionals and Advanced Construction Manpower Training Scheme introduced by the Construction Industry Council. Chun Wo has spared no effort in helping employees reinforce and strengthen their professional skills, while the Group's sterling reputation and professional image has become more widely known. It has even become a prime example of a company that offers all-round benefits to its employees.

EMPLOYEE HEALTH AND SAFETY

Chun Wo is deeply concerned about the health and safety of its workers. As an OHSAS 18001 certified company, the Group was not satisfied by merely meeting standards, but strived to exceed such standards. The Group has established a safety audit system which identifies actual or potential dangers and threats, and also closely monitors the results of implementing the system across the Group. During the review period, a safety audit score of 88.6% was achieved by the Group, which surpassed the target of 85%.

The Group implements safety control measures at every construction site to ensure that workers work in a safe environment. Other than the small health inspection station already implemented, the Group also introduced measures including Firm Ground Tester. Due to the Group's efforts in maintaining high safety standards and the outstanding performance achieved in this regards during the review period, the accident rate of Chun Wo reached 0.175 accidents per 100,000 working hours, which is far better than the safety target it had set at the beginning of the year (i.e. accident rate <0.23). The Group is pleased with the low accident rate during the period.

CORPORATE SOCIAL RESPONSIBILITY *(Continued)*

EMPLOYEE HEALTH AND SAFETY *(Continued)*

Aside from promoting occupational health and safety and associated measures at every construction site, the Group also actively participates in various events organized by the industry. One of these major events was “Safety Campaign 2015 Lifting Safety & Housekeeping”, which promoted the occupational health and safety information. Owing to the concerted efforts of the Group in its mission to improve construction site safety, the Group won the Silver Award in the Construction Industry category of the “Safety Management System Award”, and the Silver Award of “Best Safe Working Cycle Site”, organized by the Occupational Safety & Health Council, and the Bronze Award at the “Innovative Safety Initiative Award 2015”, jointly organized by the Development Bureau and Construction Industry Council. The Group’s ongoing efforts and achievements in the field of occupational safety have therefore been recognized once again.

ENVIRONMENTAL PROTECTION

Chun Wo understands that as the industry builds and develops a society, it will also inevitably affect the environment. As a corporate citizen with a strong sense of social responsibility, the Group adopted a constructive model where sustainable development represents its core strategy, and made great efforts to conserve resources and enhance environmental protection standards in order to minimize pollution from construction. As a result, the Group has integrated comprehensive green concepts such as recycling into its overall business operations. During the period, the Group was presented with the “Hong Kong Awards for Environmental Excellence — Construction Industry Silver Award” in recognition of its concern for the living environment thus reaffirming the superb contributions made by Chun Wo in terms of environmental protection.

OPERATING PRACTICES

The Group has fervently adhered to its operating principles of honesty, integrity and fairness, and has constantly reminded employees to avoid situations that may result in a conflict of interest. It has also issued periodic reminders to business partners/suppliers about the Group’s policy regarding “Non-acceptance of Advantages” to ensure that the good reputation of the Group will not be tarnished by corruption, fraud or disloyalty.

COMMUNITY INVOLVEMENT

The Group has consistently participated in social activities throughout the years, and strived to serve and build close bonds with the community through education, donations, volunteerism and cooperation with social enterprises. The Group has also earnestly sought to reduce the impact of its construction projects on communities; seeking to constantly improve the living environment for society. During the period, Chun Wo actively participated in 14 community events and fundraising activities. At the same time, it collaborated with institutions such as the Construction Industry Council, Construction Charity Fund, Red Cross, SPCA and MTR to provide services to various community groups.

NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

1 BASIS OF PREPARATION

The condensed consolidated financial statements have been prepared in accordance with the applicable disclosure requirements of Appendix 16 to the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited (“Listing Rules”) and with Hong Kong Accounting Standard (“HKAS”) 34 Interim Financial Reporting issued by the Hong Kong Institute of Certified Public Accountants (“HKICPA”).

2 PRINCIPAL ACCOUNTING POLICIES

The condensed consolidated financial statements have been prepared on the historical cost basis except for investment properties, assets classified as held for sale and certain financial instruments which are measured at fair values.

The accounting policies and methods of computation used in the condensed consolidated financial statements for the six months ended 30 September 2015 are consistent with those followed in the preparation of the Group’s annual financial statements for the year ended 31 March 2015.

The Group has adopted the following revised Hong Kong Financial Reporting Standards (“HKFRSs”) for the first time for the current period’s condensed consolidated financial statements:

Amendments to HKAS 19

Defined Benefit Plans:

Employee Contributions

Annual Improvements 2010–2012 Cycle

Amendments to a number of HKFRSs

Annual Improvements 2011–2013 Cycle

Amendments to a number of HKFRSs

The adoption of these revised HKFRSs has had no significant financial effect on these interim condensed consolidated financial statements and there have been no significant changes to the accounting policies applied in these interim condensed consolidated financial statements.

3 OPERATING SEGMENT INFORMATION

For management purposes, the Group's operating businesses are structured and managed separately according to the nature of their operations and the products and services they provide. Each of the Group's operating segments represents a strategic business unit that offers products and services which are subject to risks and returns that are different from those of the other operating segments.

The chief operating decision maker of the Group has been identified as the executive directors of the Company and certain senior management (collectively referred as the "CODM"). For the purpose of performance assessment and resource allocation by the CODM, the Group's business activities are categorised under the following three reportable operating segments:

- Construction work — provision of services in areas of civil engineering, electrical and mechanical engineering, foundation and building construction
- Property development and investment — sale and leasing of properties
- Professional services — provision of security, cleaning and other property management related services

NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS *(Continued)*

Corporate and other unallocated expenses				(11,270)
Finance costs				(18,696)
Income tax				(24,342)
Profit for the period				25,901

The accounting policies adopted in preparing the reportable segment information are the same as the Group's accounting policies.

Segment result represents the gross profit/(loss) generated from each segment, net of selling expenses and administrative expenses directly attributable to each segment without allocation of corporate expenses, interest income and finance costs. This is the measure reported to the CODM for the purposes of resource allocation and performance assessment.

Segment assets and liabilities

Total segment assets and liabilities are not disclosed as they are not regularly reviewed by the CODM.

Notes:

- (a) The Convertible Bonds A was issued to China New Way on 31 December 2014 pursuant to a subscription agreement dated 16 September 2014 entered into between the Company and China New Way. Further details of the Convertible Bonds A are set out in the Company's circular dated 26 November 2014.

On 5 February 2015, China New Way disposed of 50% of the Convertible Bonds A with an aggregate principal amount of HK\$42,133,000 to China City Construction (International) Co., Limited ("CCCI", a then third party independent to the Group but a shareholder of the Company as at 31 March 2015) and hence each of China New Way and CCCI has interest in the Convertible Bonds A with an aggregate principal amount of HK\$42,133,000 as at 31 March 2015.

On 17 April 2015, China New Way exercised the conversion rights of all its interest in the Convertible Bonds A with an aggregate principal amount of HK\$42,133,000 and 91,000,000 new ordinary shares of the Company were allotted and issued to China New Way accordingly and hence only CCCI has interest in Convertible Bond A with an aggregate principal amount of HK\$42,133,000 as at 30 September 2015.

- (b) Convertible Bonds B was issued to CCCI on 30 March 2015 pursuant to a subscription agreement dated 13 March 2015 entered into between the Company and CCCI for the purpose of providing general working capital to the Group and funding for partial payment of the consideration in respect of the acquisition of 90% equity interest in 中國城市建設控股集團(珠海)置業有限公司 ("CCC Zhuhai"), which is a property development company established in the PRC and engages in the development of a piece of land in Zhuhai City, the PRC. The acquisition transaction were terminated on 12 November 2015.

Further details of the Convertible Bonds B and the termination of the acquisition of 90% equity interest in CCC Zhuhai are set out in the Company's announcements dated 13 March 2015 and 12 November 2015 respectively.

19 CONTINGENT LIABILITIES

At the end of the reporting period, the Group had the following contingent liabilities, which have not been provided for in the consolidated financial statements:

(a) Corporate guarantees and performance bonds given

	30 September 2015 HK\$'000	31 March 2015 HK\$'000
Indemnities issued to financial institutions for performance bonds in respect of construction contracts undertaken by:		
— subsidiaries	896,607	461,710
— joint operations	467,515	410,521
	1,364,122	872,231
Extent of guarantee issued to financial institutions to secure credit facilities granted to:		
— associates	301,300	306,100
Guarantees for property development projects given to banks which granted facilities to purchasers of the Group's properties held for sale	195,811	203,762
	1,861,233	1,382,093

In the opinion of the directors of the Company, the fair values of the financial guarantee contracts of the Group are insignificant at initial recognition and the Directors consider that the possibility of the default of the parties involved is remote. Accordingly, no value has been recognized in the condensed consolidated statement of financial position in respect of these financial guarantee contracts.

As at 30 September 2015, the banking facilities guaranteed by the Group to associates were utilised to the extent of HK\$118,750,000 (31 March 2015: HK\$122,200,000).

19 CONTINGENT LIABILITIES *(Continued)*

(b) Litigations

- (i) During the year ended 31 March 2014, a subsidiary of the Group commenced legal proceedings to seek payment for an outstanding amount of approximately HK\$335 million against the contract customer of a construction contract (the “Tsz Shan Monastery Project”) undertaken by the Group in prior years, and a writ of summons was issued at the High Court of the Hong Kong Special Administrative Region against the contract customer for additional works performed and costs incurred by the subsidiary of the Group for superstructure works in relation to the main buildings and associated facilities at the Tsz Shan Monastery complex on 8 August 2013. Subsequently, the subsidiary of the Group received a defence and counterclaim from the contract customer on 22 November 2013, in which the contract customer accepted that it was liable to pay only a certain amount of the subsidiary of the Group’s claims and, in addition, is alleging contra charges against the subsidiary of the Group in respect of rectification of alleged non-compliance works and sectional liquidated damages.

The Group has recognised contract revenue and cost in profit or loss up to 30 September 2015, by reference to the stage of completion of the contract activity at the end of the reporting period, which is measured by reference to the value of work carried out to date as certified by the architect. Variations in contract work and claims are included in revenue to the extent that the amount has been certified by the architect and its receipt is considered probable.

The ultimate outcome of the case will depend on the evidence adduced before the court at trial in late March 2016.

However, after having performed management’s internal critical assessment of the aforesaid case and seeking advice from independent quantum assessor and legal advisor, the directors of the Company are of the opinion that the defence and counterclaim by the contract customer has no merit and would be successfully defended, therefore no material adverse financial impact to the Group is expected.

19 CONTINGENT LIABILITIES *(Continued)*

(b) Litigations *(Continued)*

- (ii) During the year ended 31 March 2014, a plaintiff commenced legal proceedings against a subsidiary of the Group alleging that the termination of a proposed transaction in relation to the sale of commercial development and 49% interest in the car park development at No. 8 Clear Water Bay Road (collectively the “Properties”) was wrongful and claimed for the loss of capital appreciation of the Properties for the breach of a memorandum entered into between the plaintiff and a subsidiary of the Group in September 2013.

The plaintiff and the subsidiary of the Group have completed the pleadings stage and have exchanged their witness statements on 9 January 2015. Subsequently, they are in the course of preparing their respective provisional quantum expert reports on a without prejudice basis and are due for exchange in early December 2015.

Further directions of the case will depend on the evidence adduced before the case management conference for the proceedings which is not expected at least until late 2015.

Besides, during the year ended 31 March 2014, another plaintiff commenced legal proceedings against the same subsidiary of the Group that the termination of a proposed transaction in relation to the sale of commercial development at No. 8 Clear Water Bay Road was wrongful and seeks damages to the subsidiary of the Group.

The parties have completed the discovery stage. The proceedings are now stayed until early January 2016 pending mediation. Given the early stages of the legal proceedings, it is difficult to assess the ultimate outcome of the case.

However, based on the existing legal documents after having performed management’s internal critical assessment of the aforesaid case and seeking advice from independent legal advisor, the directors of the Group are of the opinion that the Group has a reasonable ground of defence on the merits and would be successfully defended, therefore no material adverse financial impact to the Group is expected.
